We're pleased to present the first ever Runic Games cosplay guide featuring the hero of Hob.

The world of Hob is a puzzle which asks for you to solve its mysteries. This adventure is yours, and you are our hero – a mysterious, cloaked figure with glowing eyes set deep within a red hood.

With the release of this guide, we invite you to step into our hero's shoes and use the same bravery and wit to navigate your own world.

It was important for us to create a character accessible to everyone, so we hope to see fans of all shapes, sizes, and genders in this role.

It's your chance. Make it home.

CLOAK

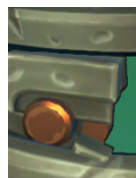

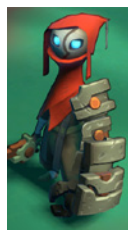

This heavy cloth cloak protects against the elements in an unknown world.

SACHEL

This small leather satchel is used to hold world pieces, sword pieces and other odds and ends.

THE GLOVE

This upgradeable glove of metal and stone grants incredible power and is key to both combat and traversal.

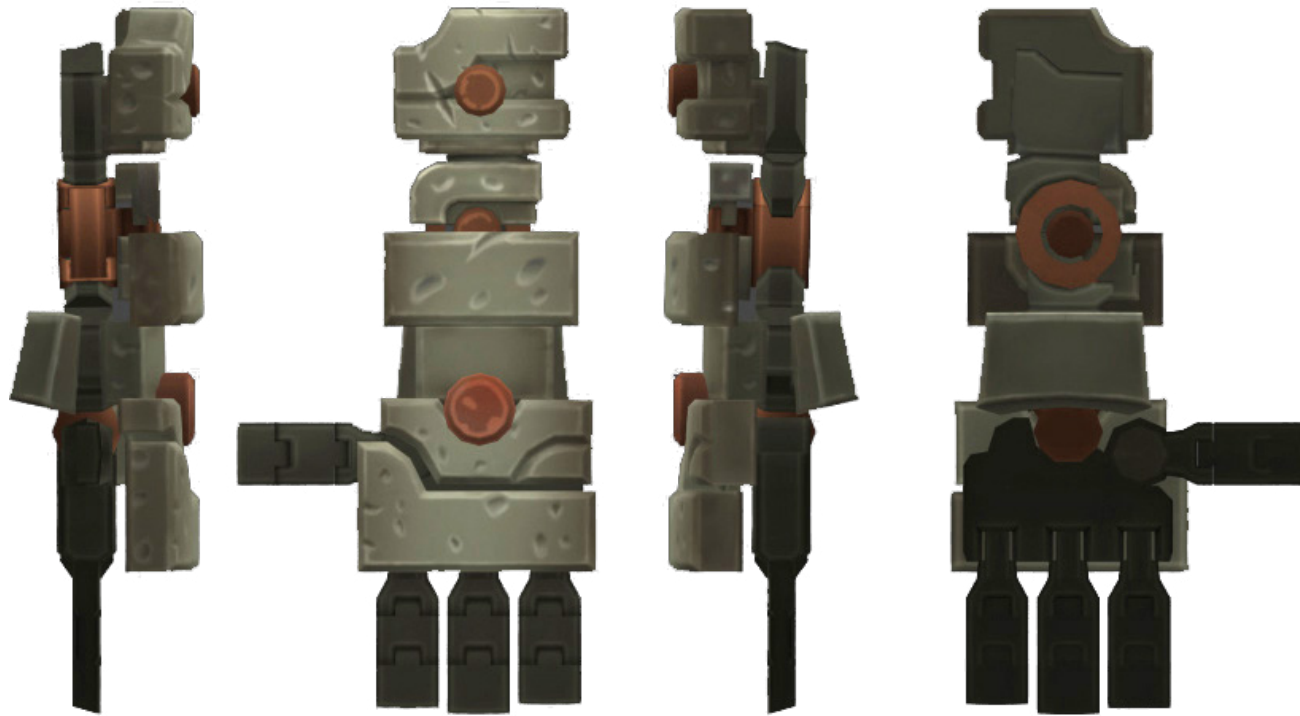

NOTE: Hood is symmetrical, but gets posed by animation in-game. One tassel hangs lower, giving a shaped curve to the hood.

The background is a detailed, dark, and atmospheric illustration of a mechanical or industrial environment. It features large, rusted metal gears, pipes, and structures. In the upper right, a small, yellow and orange mechanical creature or robot is visible. In the lower center, a character in a red and brown outfit is crouched on a circular platform. The overall color palette is dominated by dark blues, greys, and browns, with some warm orange and red highlights from the machinery and lighting.
